**INDEPENDENT AUDITORS' REPORT**

To the Honorable Mayor and  
Members of the City Council  
City of Hill Country Village, Texas

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Hill Country Village, Texas, as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, as listed in the table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Hill Country Village, Texas, as of September 30, 2019 and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and Texas Municipal Retirement System Net Pension Liability and Other Postemployment Benefits Liability required schedules on pages 3 through 9, pages 43-45, and pages 46-50, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Hill Country Village, Texas's basic financial statements. The combining and individual non-major fund financial statements and schedules and additional information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The additional information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and accordingly, we do not express an opinion or provide any assurance on them.

**CITY OF HILL COUNTRY VILLAGE, TEXAS**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**

**September 30, 2019**

This section of the City of Hill Country Village, Texas, (City) annual audit is a discussion and analysis of the City's financial activities for the fiscal year ending September 30, 2019. Readers are encouraged to consider the information presented here in conjunction with additional information furnished in the accompanying basic financial statements.

This discussion and analysis is designed to:

- assist the reader in focusing on significant financial issues,
- provide an overview of the City's financial activity,
- identify changes in the City's financial position (its ability to address the next and subsequent year challenges),
- identify any material deviations from the financial plan (approved budget), and
- identify individual fund issues or concerns.

**FINANCIAL HIGHLIGHTS**

The City's net position is \$5,376,789 for the fiscal year reported. This compares to the previous year's net position of \$5,144,442.

1. Net investment in capital assets of \$2,434,299 are capital assets net of related debt and include all property and equipment, net of accumulated depreciation, and is reduced for outstanding debt related to the purchase or construction of these assets.
2. Net position of \$146,530 is restricted by constraints imposed by internal and external sources such as grantors, laws, and regulations.
3. Unrestricted net position of \$2,795,960 represents the portion available to maintain the City's ongoing obligations to citizens and creditors.

The City's governmental funds reported combined ending fund balances of \$2,801,376, an increase of \$271,814 over the September 30, 2018 fund balance of \$2,529,562.

At the end of the current fiscal year, the unassigned fund balance for the general fund was \$1,381,117 or 82% of the total general fund expenditures.

The City's total debt decreased by \$146,000 or 50.17% due to this year's payments.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of four parts:

- Management's discussion and analysis,
- The basic financial statements,
- Required supplementary information, and
- Additional section that presents combining statements for non-major governmental funds.

The basic financial statements, as represented by figure A-1 below, include two types of statements that present different views of the City, government-wide financial statements and fund financial statements.

### Government-Wide Financial Statements

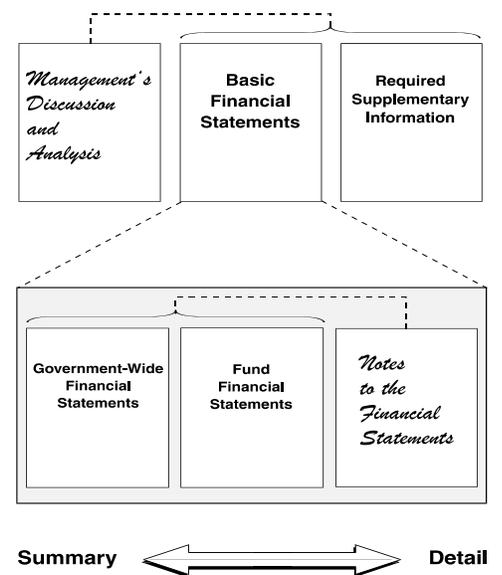

These statements provide both long-term and short-term information about the City’s overall financial status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The first of these two government-wide statements is the **statement of net position**. This is the City-wide statement of financial position presenting information that includes all of the government’s assets and liabilities, with the difference between the two reported as net position.

The second government-wide statement is the **statement of activities**, which reports how the City’s net position changed during the current fiscal year. All of the current year’s revenue and expenses are accounted for in this statement regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from the City’s component unit. The governmental activities of the City of Hill Country Village include public safety, public works and general and administrative services. The government-wide financial statements can be found on pages 13 and 14 of this report.

Figure A-1, Required Components of the City’s Annual Financial Report

### Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds – not the City as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Hill Country Village, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Hill Country Village are considered governmental funds.

Governmental funds are reported in the fund financial statements and contain essentially the same functions as governmental activities in the government-wide financial statements. These statements provide a short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the City’s programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided on the schedules immediately following the governmental funds statements that explain the relationship or differences between them. The basic governmental fund financial statements can be found on pages 15 through 18 of this report.

### Notes to the Financial Statements

The accompanying notes to the financial statements provide additional information essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 19 through 39 of this report.

## Other Information

In addition to the basic financial statements and accompanying notes, this report also presents budgetary comparison schedules for the general fund and road maintenance fund. These schedules demonstrate compliance with the City's adopted and final amended budgets, and can be found on pages 43 through 45 of this report. In addition, trend information for the TMRS pension and OPEB are presented as required supplementary information.

Combining statements of the City's non-major governmental funds and their related schedules of budgetary activity are presented immediately following the required supplementary information. Combining and individual fund statements and budget schedules can be found on pages 53 through 66 of this report.

### GOVERNMENT-WIDE FINANCIAL ANALYSIS

The City's combined net position at fiscal yearend is \$5,505,004. This is a \$235,889 increase over last year's net position of \$5,269,115. The following table provides a summary of the City's net position at September 30:

**Table 1 – Summary of Net Position**

At the end of the current fiscal year, the City of Hill Country Village is able to report positive balances in net position for the government activities and for its component unit (Hill Country Village Economic Development Corporation's) activities.

A large portion of the City's net position is restricted as to the purpose they can be used for or are invested in capital assets (land, buildings, streets, and equipment). The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. There are four basic transactions that will affect the comparability of the Statement of Net Position summary presentation as reflected below:

1. Net results of activities will impact (increase/decrease) current assets and unrestricted net position.
2. Spending of non-borrowed current assets on new capital will reduce current assets, increase capital assets, reduce unrestricted net position, and increase net investment in capital assets.
3. Principal payment on debt will reduce current assets, reduce long-term debt, reduce unrestricted net position, and increase net investment in capital assets.
4. Reduction of capital assets through depreciation will reduce capital assets and net investment in capital assets.

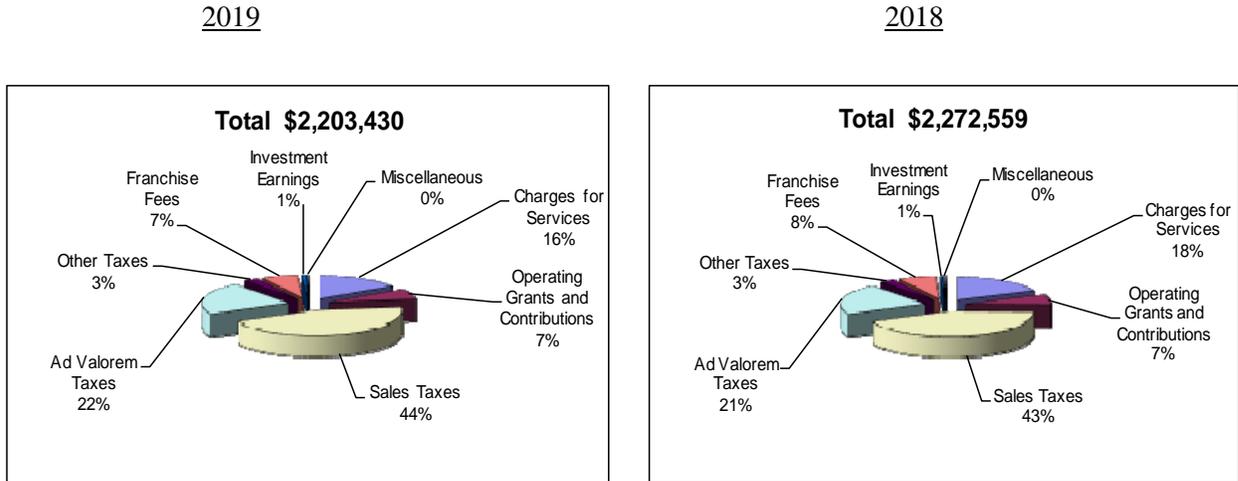

The City had a combined decrease in governmental revenues of \$73,492, or 3.01%, as combined expenses increased a total of \$50,141 or 2.41%. The following provides a summary of the City's changes in net position for the year ended September 30:

**Table 2 - Summary of Changes in Net Position**

	Governmental Activities		Component Unit (EDC)		Total		Amount Change	% Change
	2018-2019	2017-2018	2018-2019	2017-2018	2018-2019	2017-2018

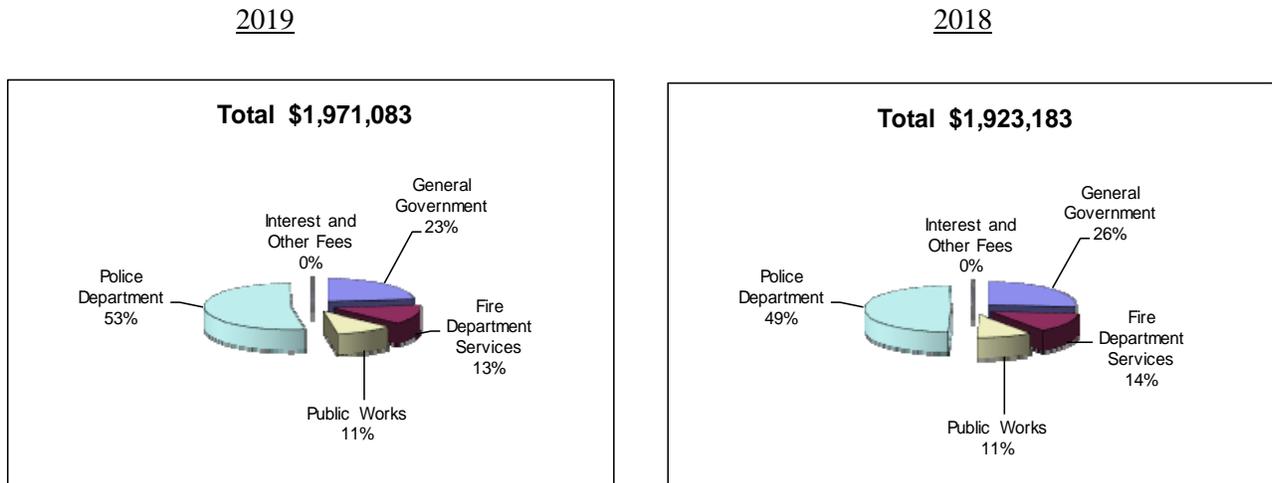

Graphic presentations of selected data from the summary table above follow to assist in the analysis of the City's activities for fiscal years 2019 and 2018.

### Governmental Revenues

As shown in the summary data on the previous page, the City is heavily reliant on various taxes and franchise fees to support governmental operations. Taxes accounted for 69% and 68% of the City's total governmental revenues in fiscal years 2019 and 2018, respectively. The majority of franchise fees are received from CPS Energy, Time Warner Cable/Spectrum, and AT&T.

### Governmental Functional Expenses

The largest portion of the City's expenses continues to be for public safety.

### FUND FINANCIAL ANALYSIS

For the fiscal year ended September 30, 2019, the City's governmental funds reported combined fund balances of \$2,801,376. Of this yearend total, approximately \$1,381,117 is unassigned, indicating availability for continuing City service requirements. Restricted fund balance is \$146,530 and is restricted for special revenue funds such as court security and court technology, for the use of Public Education Grant receipts, and debt service. Committed fund balances include: \$1,064,768 for road maintenance, \$28,396 for the replacement/acquisition of capital assets and \$180,565 committed to the replacement of vehicles.

The total ending fund balance of governmental funds shows an increase of \$271,814 over last year's combined fund balance of \$2,529,562. This increase is primarily the result of an increase in licenses and permits issued and an increase in interest earned.

**Major Governmental Funds**

The general fund is the City’s primary operating fund. This fund is primarily funded through sales tax and ad valorem (property) tax. Other notable revenue sources include user fees (permit fees, court fees, sewer use fees, and franchise fees) and interest income. The general fund supports police, fire, ambulance, municipal court, finance, administrative support for the City Council and its boards and commissions, as well as building and health inspections.

The road maintenance fund is funded by sales taxes and ad valorem taxes which are then used to repair and reconstruct existing roads within the City’s limits.

**CAPITAL ASSETS AND DEBT ADMINISTRATION**

**Capital Assets**

The City of Hill Country Village’s investment in capital assets for its governmental type activities as of September 30, 2019, totaled \$2,579,299, net of accumulated depreciation. Investments in capital assets include land, buildings, machinery and equipment, streets and signs, and automobiles.

**Table 3—Capital Assets, Net of Accumulated Depreciation**

	Fiscal Year		Amount Change	% Change
	2018-2019	2017-2018		
Land	\$ 829,875	\$ 829,875	\$ -	0.00 %
Construction in progress	84,620	10,000	74,620	88.18
Streets	1,548,160	1,713,517	(165,357)	-10.68
Signs	4,421	6,182	(1,761)	-39.83
Buildings	33,082	38,596	(5,514)	-16.67
Automobiles	30,055	76,187	(46,132)	-153.49
Machinery and equipment	49,086	59,765	(10,679)	-21.76
Totals	<u>\$ 2,579,299</u>	<u>\$ 2,734,122</u>	<u>\$ (154,823)</u>	-6.00

During the fiscal year 2018-2019 the City’s capital asset carrying value decreased a net amount of \$154,823. This amount includes depreciation expense of \$229,443 and additional costs for road improvements of \$74,620. See Note 4 for more information.

## Long-Term Debt

The City of Hill Country Village issues bonds to fund needed capital improvement projects such as road construction and rehabilitation projects. These projects are budgeted in the capital projects fund. The budgeted amounts in the debt service fund reflect the actual principal and interest payments on all outstanding debt. The outstanding principal and interest payments are scheduled to be paid out in 2020. See Note 6 for more information.

**Table 4—Long-Term Debt Outstanding**

	Fiscal Year		Amount Change	% Change
	2018-2019	2017-2018		
General obligation bonds - principal	\$ 145,000	\$ 291,000	\$ (146,000)	(50.17) %
General obligation bonds - interest	<u>1,015</u>	<u>4,023</u>	<u>(3,008)</u>	(74.77)
Totals	<u>\$ 146,015</u>	<u>\$ 295,023</u>	<u>\$ (149,008)</u>	(50.51)

## ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

As in years past, the City set money aside in the vehicle replacement fund for the future purchase of police vehicles. For fiscal year 2020 the amount was reduced to \$5,000 by City Council because the Vehicle Replacement fund had enough money to purchase new police vehicles. For fiscal year 2016 and forward, the citizens of the City of Hill Country Village approved an increase of \$0.05 in property taxes to be maintained in the road maintenance fund to be committed to future capital projects. For fiscal year 2020, the City budgeted general fund revenues of \$1,724,569 or an 0.01% increase from fiscal year 2019 budget. Additionally, for fiscal year 2020, the City budgeted general fund expenditures of \$1,701,880 or an increase of 0.01% from fiscal year 2019 budget.

## REQUESTS FOR INFORMATION

The City's financial statements are designed to present users (citizens, taxpayers, customers, investors, and creditors) with a general overview of the City's finances and to demonstrate the City's accountability. If you have questions about the report or need additional financial information, contact City Officials at the City Offices located at 116 Aspen Lane, San Antonio, Texas 78232, (210) 494-3671.

**CITY OF HILL COUNTRY VILLAGE, TEXAS**

**RECONCILIATION OF CHANGE IN FUND BALANCES –  
GOVERNMENTAL FUNDS TO CHANGE IN NET POSITION –  
GOVERNMENTAL ACTIVITIES**

**September 30, 2019**

Net Change in Fund Balances - Total Governmental Funds \$ 271,814

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures (\$74,620).

However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense (\$229,443). This is the amount by which depreciation expense exceeded capital outlays in the current period. (154,823)

Revenues in the statement of activities that do not provide current financial resources and are not reported as deferred inflows of resources in the funds. (6,587)

The change in net pension liability and deferred inflows and outflows related to the City's TMRS pension liability. (22,246)

The change in the OPEB liability and deferred inflows and outflows related to the City's TMRS OPEB asset. (2,295)

Repayment of bond principal is an expenditure in the funds but is not an expense in the statement of activities. 146,000

Certain long-term liabilities are accrued at the government-wide level but not at the fund level. This is the current year change in those liabilities, reported as expense in the statement of activities (accrued interest). 484

Change in net position of governmental activities \$ 232,347

The accompanying notes are an integral part of these financial statements.

**CITY OF HILL COUNTRY VILLAGE, TEXAS**

**NOTES TO BASIC FINANCIAL STATEMENTS**

**September 30, 2019**

(1) Summary of significant accounting policies

Reporting entity

The City of Hill Country Village is a municipal corporation governed by an elected mayor and five-member council. The accompanying financial statements present the City and its discretely presented component unit, an entity for which the City is considered to be financially accountable. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

Discretely presented component unit - The component unit column in the government-wide financial statements includes the financial data of the non-major component unit of the City of Hill Country Village, Texas. The component unit is presented as a governmental fund type. Following is a summary of the component unit:

Economic Development Corporation – The Corporation was organized for the purpose of promoting economic development in order to eliminate unemployment and underemployment and to promote and encourage employment and public welfare of, for, and on behalf of the City. The Board of Directors consists of five (5) members appointed by the city council.

Complete financial statements of the component unit may be obtained at City Hall located at 116 Aspen Lane, San Antonio, Texas 78232.

Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues. The primary government is reported separately from the legally separate component unit for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges of customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

**CITY OF HILL COUNTRY VILLAGE, TEXAS**

**NOTES TO BASIC FINANCIAL STATEMENTS**

**September 30, 2019**

(1) Summary of significant accounting policies (continued)

Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured.

Property and sales taxes, utility franchises, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The general fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The road maintenance fund is funded solely by sales taxes which are then used to repair and reconstruct existing roads within the City's limits.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this are charges between the City's general government function and various other functions of the City. Eliminations of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applications for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. General revenues include all taxes, investment earnings and all other revenues that can't be attributed to a specific functional expense.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then assigned, then committed, and then unrestricted resources as they are needed.

**CITY OF HILL COUNTRY VILLAGE, TEXAS**

**NOTES TO BASIC FINANCIAL STATEMENTS**

**September 30, 2019**

(1) Summary of significant accounting policies (continued)

Cash and cash equivalents

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and deposits in local government investment pools.

The City is authorized to invest in (1) obligations of the United States or its agencies and instrumentalities; (2) direct obligations of the State of Texas or its agencies; (3) other obligations, the principal of and interest on which are unconditionally guaranteed or insured by the State of Texas or the United States; (4) obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated of not less than "AA" or its equivalent; (5) certificates of deposit issued by state and national banks domiciled in Texas that are guaranteed or insured by the Federal Deposit Insurance Corporation (FDIC) or its successor, or secured by obligations mentioned above; and (6) fully collateralized direct repurchase agreements having a defined termination date.

Most of the investments for the City are stated at fair value. The fair value framework uses a hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the District has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The City also invests funds in pooled investments which are valued at net asset value (NAV) per share or its equivalent. The valuation methodologies described above may produce a fair value calculation that may not be indicative of net realizable values or reflective of future fair values. Furthermore, while the City believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**CITY OF HILL COUNTRY VILLAGE, TEXAS**

**NOTES TO BASIC FINANCIAL STATEMENTS**

**September 30, 2019**

(1) Summary of significant accounting policies (continued)

Receivables and payables

Activities between the funds that are representative of interfund loans outstanding at the end of the fiscal year are referred to as due to/from other funds.

Accounts receivable are reported net of allowances for uncollectible accounts. The allowance account represents management's estimate of uncollectible accounts based upon experience and historical trends.

Property taxes for the City are levied each October 1 on the taxable value as of the preceding January 1, the date a lien attaches, for all taxable real and personal property located in the City. Taxes are due by January 31 following the October 1 assessment date and become delinquent on February 1, at which time they begin accruing penalty and interest. The enforceable legal claim date for property taxes is the assessment date; therefore, the City did not record a receivable for accrual of future taxes at year end.

Taxes have been reported in the financial statements net of the allowance for uncollectible taxes. Tax revenues are recognized as they become available. Accordingly, an amount equal to taxes not yet available has been reported as deferred inflows of resources at the governmental fund level.

Capital assets

Capital assets, which include land, buildings and improvements, machinery, equipment, vehicles, and infrastructure assets (i.e., roads, bridges, sidewalks, and similar items), are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year.

When capital assets are purchased, they are capitalized and depreciated in the government-wide financial statements. Capital assets are recorded as expenditures of the current period in the governmental fund financial statements.

Capital assets are valued at cost where historical records are available and at an estimated cost where no records exist. Donated capital assets are valued at their estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Improvements to capital assets that materially extend the life of the asset or add to the value are capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction will not be capitalized in the governmental activities on the government-wide financial statements.

Capital assets are depreciated over their useful lives on a straight-line basis as follows:

<u>Assets</u>	<u>Years</u>
Buildings and improvements	20 - 50
Machinery, equipment, and vehicles	2 - 20
Infrastructure	15 - 30

**CITY OF HILL COUNTRY VILLAGE, TEXAS**

**NOTES TO BASIC FINANCIAL STATEMENTS**

**September 30, 2019**

(1) Summary of significant accounting policies (continued)

Compensated absences

It is the City's policy to permit employees to accumulate earned but unused paid time off, holiday, and compensatory time benefits. Paid time off, holiday, and compensatory time are accrued when incurred in the government-wide financial statements.

Deferred outflows/inflows of resources

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's fiduciary net position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other postemployment benefits

The fiduciary net position of the Texas Municipal Retirement System (TMRS) Supplemental Death Benefit Plan (SDBF) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net other postemployment benefit (OPEB) liability, deferred outflows of resources, and deferred inflows of resources related to the net other postemployment benefits, OPEB expense, and information about additions to/deductions from the TMRS OPEB's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. Contributions are utilized to fund active member deaths on a pay-as-you-go basis; any excess contributions and investment income over payments then become net position available for benefits.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has two items which arises under the modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the items, unavailable revenues, are reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and municipal court warrants. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Long-term obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as a liability.

**CITY OF HILL COUNTRY VILLAGE, TEXAS**

**NOTES TO BASIC FINANCIAL STATEMENTS**

**September 30, 2019**

(1) Summary of significant accounting policies (continued)

Fund balance

The City has implemented GASB Statement 54 “*Fund Balance Reporting and Governmental Fund Type Definitions.*” This statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government’s fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance – amounts that are not in a spendable form (such as prepaid expenditures) are required to be maintained intact;
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance – amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority, to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance – amounts that are available for any purpose, positive amounts are reported only in the general fund.

The City Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. Assigned fund balance is delegated by the City Council to the City Administrator.

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**CITY OF HILL COUNTRY VILLAGE, TEXAS**

**NOTES TO BASIC FINANCIAL STATEMENTS**

**September 30, 2019**

(2) Deposits and investments

Deposits and investments

*Custodial credit risk – deposits.* In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The City's investment policy requires funds on deposit at the depository bank to be collateralized. As of year end, checking and time deposits were entirely insured or collateralized with securities as provided by State laws and regulations and FDIC Insurance.

The City's policy requires deposits to be 102 percent (102%) secured by collateral less the amount of the Federal Deposit Insurance Corporation (FDIC) insurance. The City Council approves and designates a list of authorized depository institutions based on audited financial statements, proof of National Association of Security Dealers certification, and depository agreements provided by the financial institution.

During the year, the City's carrying amount of bank balance was \$2,321,041 and the bank balance was \$2,346,820.

*Custodial credit risk – investments.* For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the City's investments are held in external investment pools which are not subject to custodial credit risk. At year end, the City had \$640,015 invested in short-term pooled investments.

*Interest rate risk – investments.* For an investment, this is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The City's policy provides that investments are matched with anticipated cash flows. The policy also states that the City will generally not directly invest in securities with maturities more than one year from the date of purchase, although the City Administrator may elect to invest no more than 50% of excess funds in investments with maturities from 1 to 3 years.

*Fair value measurement – investments.* Fair Value of the City's investments are measured by the City categorizes using the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. level 1 inputs are quoted prices in the active markets for identical assets; level 2 inputs are significant other observable inputs; level 3 inputs are significant unobservable inputs. All of the City's investments carried at fair value are valued using quoted market prices (level 1 inputs).

**CITY OF HILL COUNTRY VILLAGE, TEXAS**

**NOTES TO BASIC FINANCIAL STATEMENTS**

**September 30, 2019**

(2) Deposits and investments (continued)

Public fund investment pools

Public funds investment pools in Texas (Pools) are established under the authority of the Inter-local Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of Public Funds Investment Act (the Act), Chapter 2256 of the Texas Government Code.

In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires pools to: (1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; (2) maintain a continuous rating of no lower than AAA or AAA- or an equivalent rating by at least one nationally recognized rating service; and (3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares.

As of September 30, 2019, the City’s investments are rated as to credit quality as follows:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Weighted Average Maturity (Days)</u>	<u>Rating</u>
TexPool Investment Pool	\$ 168,580	34	AAAm
Texas CLASS Investment Pool	<u>471,435</u>	41	AAAm
Total	<u>\$ 640,015</u>		
Portfolio Weighted Average Maturity	39

**CITY OF HILL COUNTRY VILLAGE, TEXAS**

**NOTES TO BASIC FINANCIAL STATEMENTS**

**September 30, 2019**

**(6) Long-term debt**

The City had the following changes in long-term debt outstanding for the year ended September 30, 2019:

	Original Amount	Interest Rates	Balance Outstanding October 1, 2018	Issued	Retired	Balance Outstanding September 30, 2019	Amounts Due in One Year
Governmental Activities:							
General Obligation Refunding							
Bonds, Series 2014	\$ 868,000	0.65-1.5%	\$ 291,000	\$ -	\$ 146,000	\$ 145,000	\$ 145,000
Total governmental activities			\$ 291,000	\$ -	\$ 146,000	\$ 145,000	\$ 145,000

Annual debt service requirements as of September 30, 2019, are as follows:

Fiscal Year Ending September 30,	Governmental Activities		
	Principal	Interest	Total
2020	\$ 145,000	\$ 1,015	\$ 146,015
	\$ 145,000	\$ 1,015	\$ 146,015

**Redemption**

Bonded debt of the City consists of one (1) series of general obligation bonds. General obligation bonds are direct obligations of the City for which its full faith and credit are pledged, and are payable from taxes levied on all taxable property located within the City. The bonds stated to mature on and after January 1, 2015, are subject to redemption prior to stated maturity, at the option of the City, on January 1, 2014, or any date thereafter, in whole, in principal amounts of \$5,000 or any integral multiple thereof, at the redemption price of par plus accrued interest to the date of redemption.

**(7) Defined benefit pension plan**

**Plan description**

The City participates as one of 887 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at [www.tmr.com](http://www.tmr.com).

All eligible employees of the city are required to participate in TMRS.

**CITY OF HILL COUNTRY VILLAGE, TEXAS**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**September 30, 2019**

(7) Defined benefit pension plan (continued)

Benefits provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the City-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a partial lump sum distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Members are eligible to retire at age sixty (60) and above with five (5) or more years of service or with twenty-five (25) years of service regardless of age. A member is vested after five (5) years. The contribution rate for the employees is 5%, and the City matching percent is currently 2 to 1.

Employees covered by benefit terms

At the December 31, 2018 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	4
Inactive employees entitled to but not yet receiving benefits	21
Active employees	<u>15</u>
	<u>40</u>

Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the City matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the entry age normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City were required to contribute 5% of their annual gross earnings during the fiscal year. The contribution rates for the City were 3.72% and 3.71% for calendar years 2018 and 2019 respectively. The City's contributions to TMRS for the year ended September 30, 2019 were \$32,935, and were equal to the required contributions.

Net pension liability

The City's net pension liability was measured as of December 31, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

**CITY OF HILL COUNTRY VILLAGE, TEXAS**

**NOTES TO BASIC FINANCIAL STATEMENTS**

**September 30, 2019**

(7) Defined benefit pension plan (continued)

Net pension liability (continued)

Actuarial assumptions:

The total pension liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	3.0% per year
Investment rate of return	6.75%, net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Table with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. In addition, smaller city methodologies were used by lower termination rates, with a maximum multiplier of 115% for employers. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Table with Blue Collar Adjustments are used with males rates multiplied by 109% and female rates multiplied by 103% with a 3 year set-forward for both males and females. In addition, a 3% minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the 3% floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four year period from December 31, 2010 through December 31, 2014. They were adopted in 2015 and first used in the December 31, 2015 actuarial valuation. The post-retirement mortality assumption for healthy annuitants and annuity purchase rate (APRs) are based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. In conjunction with these changes first used in the December 31, 2013 valuation, the System adopted the entry age normal actuarial cost method and a one-time change to the amortization policy. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive).

**CITY OF HILL COUNTRY VILLAGE, TEXAS**

**NOTES TO BASIC FINANCIAL STATEMENTS**

**September 30, 2019**

(7) Defined benefit pension plan (continued)

Net pension liability (continued)

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Rate of Return (Arithmetic)</u>
Domestic Equity	17.5%	4.30%
International Equity	17.5%	6.10%
Core Fixed Income	10.0%	1.00%
Non-Core Fixed Income	20.0%	3.39%
Real Return	10.0%	3.78%
Real Estate	10.0%	4.44%
Absolute Return	10.0%	3.56%
Private Equity	5.0%	7.75%
Total	<u>100.0%</u>	

Discount rate:

The discount rate used to measure the total pension asset was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**CITY OF HILL COUNTRY VILLAGE, TEXAS**

Sensitivity of the net pension liability to changes in the discount rate

The following presents the net pension liability of the City, calculated using the discount rate of 6.75%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

	<u>1% Decrease in Discount Rate (5.75%)</u>	<u>Discount Rate (6.75%)</u>	<u>1% Increase in Discount Rate (7.75%)</u>
City's net pension (asset) liability	\$ <u>362,001</u>	\$ <u>43,517</u>	\$ <u>(215,558)</u>

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in a separately-issued TMRS financial report. That report may be obtained on the Internet at [www.tmrs.com](http://www.tmrs.com).

**CITY OF HILL COUNTRY VILLAGE, TEXAS**

**NOTES TO BASIC FINANCIAL STATEMENTS**

**September 30, 2019**

(7) Defined benefit pension plan (continued)

Pension expense and deferred outflows of resources and deferred inflows of resources related to pensions

For the year ended September 30, 2019, the City recognized pension expense of \$55,319.

At September 30, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual economic experience	\$ 331	\$ 6,212
Changes in actuarial assumptions	2,590	-
Difference between projected and actual investment earnings	104,435	-
Contributions subsequent to the measurement date	25,408	-
Total	\$ 132,764	\$ 6,212

The City reported \$25,408 as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension asset for the year ending September 30, 2019. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Plan Year December 31,	Amortization Expense
2019	\$ 32,955
2020	14,566
2021	14,543
2022	39,080
2023	-
Thereafter	-
Total	\$ 101,144

(8) Other postemployment benefits (OPEB) plan

Plan description

The City participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by TMRS known as the Supplemental Death Benefits Fund (SDBF). The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

**CITY OF HILL COUNTRY VILLAGE, TEXAS**

**NOTES TO BASIC FINANCIAL STATEMENTS**

**September 30, 2019**

(8) Other postemployment benefits (OPEB) plan (continued)

Benefits provided

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit" or OPEB. As the SDBF covers both active and retiree participants, with no segregation of assets, the SDBF is considered to be an unfunded OPEB plan (i.e. no assets are accumulated).

Contributions

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

The contribution rates for the City were 0.12% and 0.14% for calendar years 2018 and 2019, respectively. The City's contributions to TMRS for the year ended September 30, 2019 were \$1,201, and were equal to the required contributions.

Employees covered by benefit terms

At the December 31, 2018 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees currently receiving benefits	2
Inactive employees entitled to but not yet receiving benefits	4
Active employees	<u>15</u>
	<u>21</u>

OPEB liability

The City's total OPEB liability of \$23,575 was measured as of December 31, 2018, and was determined by an actuarial valuation as of that date.

**CITY OF HILL COUNTRY VILLAGE, TEXAS**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**September 30, 2019**

(8) Other postemployment benefits (OPEB) plan (continued)

Actuarial assumptions:

The total OPEB liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.5%
Salary increases	3.50% to 10.5% including inflation
Discount rate *	3.71%
Retirees' share of benefit-related costs	\$0
Administrative expenses	All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB Statement No. 68.
Mortality rates - service retirees	RP2000 Combined Mortality Table with Blue Collar Adjustment with males rates multiplied by 109% and females rates multiplied by 103% and projected on a fully generational basis with scale BB.
Mortality rates - disabled retirees	RP2000 Combined Mortality Table with Blue Collar Adjustment with males rates multiplied by 109% and females rates multiplied by 103% with a 3 year set-forward for both male and females. The rates are projected on a fully generational basis with scale BB to account for future mortality improvements subject to the 3% floor.

\* The discount rate was based on the Fidelity Index's "20-Year Municipal GO AA Index" rate as of December 31, 2018.

The actuarial assumptions used in the December 31, 2018 valuation were based on the results of an actuarial experience study for the period December 31, 2010 to December 31, 2014.

**CITY OF HILL COUNTRY VILLAGE, TEXAS**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**September 30, 2019**

(8) Other postemployment benefits (OPEB) plan (continued)

Changes in the total OPEB liability:

Balance at December 31, 2017	\$	24,951
Changes for the year:		
Service cost		1,606
Interest on the total OPEB liability		852
Changes of benefit terms		-
Difference between expected and actual experience		(1,166)
Change of assumptions		(2,668)
Benefit payments		<u>-</u>
Net changes		<u>(1,376)</u>
Balance at December 31, 2018	\$	<u><u>23,575</u></u>

Sensitivity of the total OPEB liability to changes in the discount rate:

The following presents the total OPEB liability of the City, calculated using the discount rate of 3.71%, as well as what the City's net pension asset would be if it were calculated using a discount rate that is 1-percentage-point lower (2.71%) or 1-percentage-point higher (4.71%) than the current rate:

	<u>1% Decrease in Discount Rate (2.71%)</u>	<u>Discount Rate (3.71%)</u>	<u>1% Increase in Discount Rate (4.71%)</u>
City's net OPEB liability	\$ 30,955	\$ 23,575	\$ 18,264

OPEB expense and deferred outflows of resources and deferred inflows of resources related to OPEB:

For the year ended September 30, 2019, the City recognized OPEB expense of \$2,345.

**CITY OF HILL COUNTRY VILLAGE, TEXAS**

**NOTES TO BASIC FINANCIAL STATEMENTS**

**September 30, 2019**

(8) Other postemployment benefits (OPEB) plan (continued)

At September 30, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual economic experience	\$ -	\$ 998
Changes in actuarial assumptions	2,176	2,284
Difference between projected and actual investment earnings	-	-
Contributions subsequent to the measurement date	817	-
Total	\$ 2,993	\$ 3,282

Amount reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Plan Year December 31,	Amortization Expense
2019	\$ (113)
2020	(113)
2021	(113)
2022	(113)
2023	(132)
Thereafter	(522)
Total	\$ (1,106)

(9) Risk management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The City contracts with the Texas Municipal League Intergovernmental Risk Pool, a public entity risk pool currently operating as a common risk management and insurance program providing insurance coverage in the following areas: general liability, automobile liability and physical damage, worker's compensation, real and personal property, and errors and omissions liability. The agreement for formation of the Texas Municipal League Intergovernmental Risk Pool provides that the pool will be self-sustaining through member premiums and will be adjusted annually through an experience modifier.

There were no reductions in insurance coverage from the prior year. Settled claims have not exceeded coverage for each of the past three (3) years.

**CITY OF HILL COUNTRY VILLAGE, TEXAS**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**September 30, 2019**

(9) Risk management (continued)

The pooling agreement requires the pool to be self-sustaining. It is not possible to estimate the amount of any losses for which the City might be liable. The Texas Municipal League Intergovernmental Risk Pool has published its own financial report for the year ended September 30, 2019, which can be obtained from the Texas Municipal League.

# CITY OF HILL COUNTRY VILLAGE, TEXAS

## NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

September 30, 2019

### (1) Budgetary information

The budgets for the general fund and road maintenance fund are adopted on a basis consistent with generally accepted accounting principles. Annual appropriations lapse at fiscal yearend.

The original budgets for the general fund, and road maintenance fund are adopted by the City Council by September 30. Budgetary preparation and control is exercised at the department level. The City Administrator is authorized to transfer budget amounts between line items within a department; however, any transfer or supplemental appropriation that amends the total expenditures of a department or total budget requires City Council approval. Both the original and final budgets are included.

### (2) Schedule of contributions

Valuation Date:

Actuarially determined contribution rates are calculated as of December 31 and become effective in January 13 months later.

Methods and Assumptions used to Determine Contribution Rates:

Actuarial cost method	Entry age normal
Amortization method	Level percentage of payroll, closed
Remaining amortization period	25 years
Asset valuation method	10 year smoothed market, 15% soft corridor
Inflation	2.5%
Salary increases	3.5% to 10.5% including inflation
Investment rate of return	6.75%
Retirement Age	Experience-based table of rates that are specific to the City's plan of benefits. Last updated for the 2015 valuation pursuant to an experience study of the period 2010 - 2014.
Mortality	RP2000 Combined Mortality Table with Blue Collar Adjustment with male rates multiplied by 109% and female rates multiplied by 103% and projected on a fully generational basis with scale BB.

Other Information:

There were no benefit changes during the year.

**COMBINING AND INDIVIDUAL FUND  
STATEMENTS AND SCHEDULES**

## CITY OF HILL COUNTRY VILLAGE, TEXAS

### NONMAJOR GOVERNMENTAL FUNDS

Nonmajor governmental funds are used to account for the proceeds of specific revenue sources that are legally restricted to expend for specified purposes and to provide funds for capital asset purchases, respectively.

#### **Special Revenue Funds:**

Security fund – Accounts for specific proceeds from municipal court revenue and is to be used for security upgrades benefiting the City’s court system.

Technology fund – Accounts for specific proceeds from municipal court revenue and is to be used for technological upgrades benefiting the City’s court system.

Venue tax fund – Accounts for proceeds from the City’s venue (motor vehicle rental) tax and is to be used for assisting the general fund in purchasing fire department services from a neighboring city.

Grant fund - Accounts for the proceeds from various grant programs the City has applied for to be used strictly for purposes outlined in the grants.

Judicial efficiency fund - Accounts for specific proceeds from municipal court revenue and is to be used for upgrades benefiting the City’s court system.

Oak wilt fund – Accounts for specific proceeds from commercial permits and is to be used to assist City residents in defraying costs to prevent the spread of oak wilt.

#### **Debt Service Fund:**

Debt service fund – Accounts for payments for principal and interest and other fees supporting payment of the City’s bond. Revenues for this fund come through a transfer from the Economic Development Corporation, which is funded by sales taxes, and the general fund.

#### **Capital Project Fund:**

Capital projects fund - Accounts for proceeds from investment interest along with transfers from the other funds to be used for the acquisition and construction of major capital facilities.

Vehicle replacement fund – Accounts for proceeds from investment interest along with transfers from the general fund to be used to replace certain capital assets such as vehicles and computers.
