

Mayor Durand-Hollis, Council members, City Staff and HCV Residents,

All In Construction personnel have informed me that construction will begin in about two days. The work site for this initial job will be around the area of 111 Tower Drive. Culverts will go in the right of way and across Tower Drive. The following street intersections will be closed to traffic.

Tower Drive and Winding Way. No traffic will be allowed to go North on Tower Drive.

Tower Drive and Limestone Creek. No traffic will be allowed to go South on Tower Drive.

I've been told that this closure will last about two weeks.

Once they close this street we will adjust accordingly if we can allow traffic in and/or around the work site.

As I get more information I will pass it on. Please pass this on to everyone you know so that there are no problems during your commute.

Thank you,

Frank Morales
City Administrator
Chief of Police
