Fence/Gate Permit Application

Sec. 14-100. Barbed wire fences.

From and after the passage of this ordinance from which this article is derived, barbed wire fences are prohibited on any fence in any residential section within the corporate limits of the city.

(Ord. No. 684, § 1, 4-20-1995)

Sec. 14-101. Stranded wire fences.

Stranded wire fences may be constructed on any residential lot within the corporate limits of the city, provided however, that no stranded wires shall be less than six inches apart.

(Ord. No. 684, § 2, 4-20-1995)

Sec. 14-102. Cyclone fences.

Cyclone fences shall also be permitted in residential areas within the city's corporate limits provided that the top of such fences be smoothed with no cross wires exhibited.

(Ord. No. 684, § 3, 4-20-1995)

Sec. 14-103. Fencing construction standards.

(a) No fence over ten feet high or more than ten feet in height at the highest point of elevation and further, no more than 12 feet at any point along the fence shall be built on any tract (lot) in the city save and except that a site plan be first submitted to the city's building inspector setting forth the specifications and type of material to be used in the construction of same and unless a building permit therefore be first issued by the city's building inspector.

(b) Inasmuch as there are any number of properties within the city in which sport courts have been constructed near or adjoining property lines, it shall be permissible to construct a fence not to exceed a height of 16 feet.

(c) Any fence to be constructed that does not meet any of the specifications in subsection (a) or (b) of this section shall be constructed only after a variance to construct same is granted by the board of adjustment of the city.

(Ord. No. 695, § 1--3, 8-15-1996)

Sec. 14-104. Commercially zoned properties.

In commercially zoned properties fences may be constructed on front set back lines not to exceed a height of three feet and provided further that they not be opaque or constructed of materials which will impede the view of traffic on abutting streets for persons seeking ingress or egress from said commercial properties.

(Ord. No. 704, § 1a, 12-19-1996)

I understand that an inspection is required after foundations for gate posts are set or dug but before concrete is poured. The inspection for a fence is required when it is completed.

- Inspections are usually done between 8:00 and 5:00 the next day. Inspection slips are left on the job.
- Re-inspection fees are \$120.00 and must be paid prior to the re-inspection.

Revised 08/30/2022 Logon to MyGovernmentOnline between 8:30 a.m. and 4:30 p.m. to schedule next day inspections. You must have your permit number. Permit must be posted at job site. Construction is allowed 7am – 7 pm, 7 days a week.
